About Me

A driven Informatics graduate and Bangkit Academy alumnus specializing in Cloud Computing. Highly proficient in designing, deploying, and managing scalable infrastructure across Google Cloud and AWS, utilizing core technologies like Docker, Cloud Run, and EC2. A certified AWS Developer Associate with hands-on experience in containerization and system automation, eager to contribute to optimizing and secure cloud-based solutions in a professional environment.

Education

Bangkit Academy led by Google, Tokopedia, Gojek & Traveloka

Aug, 2024 – Jan, 2025

Cloud Computing

- Completed a highly selective program focused on end-to-end cloud computing, gaining expertise in infrastructure management, containerization, and scalable deployment.
- Being part of the Megalogic Automatic Number Plate Recognition (ANPR) team, I contributed to the cloud computing and front-end aspects of the project, focusing on deploying scalable infrastructure, containerization, and secure cloud-based services.

Duta Wacana Christian University

Aug, 2022 – Jan, 2026

GPA: 3.39 / 4.00

Informatic Undergraduate

Work Experiences

Sumbermas Medika

Jan, 2023 – Jan, 2026

Online Shop Graphic Designer (Part Time)

- Designed creative visual assets and managed online store product listings to optimize product presentation and enhance user engagement.

Project Experiences

Automatic Number Plate Recognition (ANPR) in Megalogic Company

Oct, 2024 – Dec, 2024

Team Lead & Cloud Engineer

- Designed and deployed a scalable cloud-based ANPR system integrating YOLOv11 for object detection and PaddleOCR for text recognition in Virtual Machine.
- Containerized services with Docker and deployed in Cloud Run as a failover.
- Implemented secure access using HTTPS, firewall rules, and SSH for VM management.
- Implemented secure database using Firebase and Buckets.
- Create and integrate frontend (Next.js) with backend APIs for real-time recognition
- Technologies Used:** Google Cloud, Docker, Compute Engine, Cloud Run, Flask, Next.js, Firebase

Website Dusun Plipir

Jun, 2025 – Jul, 2025

Front-end Engineer

- Built and deployed a static website introducing Dusun Plipir.
- Applied modern UI/UX practices with TailwindCSS for an accessible and engaging presentation.
- Technologies Used:** Typescript, TailwindCSS, NextJS

Cloud Engineer

- Containerized and deployed a plant disease classification model into a Flask backend hosted on Google Cloud Run using Docker for portability and scalability.
- Integrated mobile frontend with backend APIs for image-based disease detection and reporting.
- Monitored and optimized system performance to ensure reliable availability.
- **Technologies Used:** Google Cloud, Docker, TensorFlow, Keras, Flask

Car Brand Identifier

May, 2025 – Jun, 2025

Cloud Engineer

- Containerized application services and managed deployment on Google Cloud Run for scalability and fault tolerance.
- Implemented secure database using Firebase and Buckets.
- **Technologies Used:** Google Cloud, Docker

Certification

• Build Infrastructure with Terraform on Google Cloud - Issued by Cloud Skill Boost	Oct, 2025
• Implement DevOps Workflows in Google Cloud , Issued by Cloud Skill Boost	Oct, 2024
• Build a Secure Google Cloud Network , Issued by Cloud Skill Boost	Oct, 2024
• Application Development with Cloud Run , Issued by Cloud Skill Boost	Dec, 2024
• Elastic Google Cloud Infrastructure: Scaling and Automation , Issued by Cloud Skill Boost	Oct, 2024
• AWS Certified Cloud Practitioner , Issued by AWS Training and Certification	Jan, 2026 – Jan, 2029
• AWS Certified Developer Associate , Issued by AWS Training and Certification	May, 2026 -- May 2029

Additional Information

Technical Skills:

- **Cloud & DevOps:** Google Cloud (GCE, Cloud Run, App Engine, Cloud Storage), AWS (EC2, S3, App Runner), Docker
- **Languages:** Python, Java, JavaScript, TypeScript, SQL, HTML, CSS
- **Databases:** MySQL, Firebase
- **Tools & Frameworks:** Git, Flask, Next.js, TailwindCSS
- **Other:** Virtualization, Cloud Security, System Deployment

Soft Skills:

- Problem-Solving & Critical Thinking
- Team Leadership & Collaboration
- Technical Communications & Reporting
- Adaptability & Rapid Learning
